Landscaping crews were seen hard at work on Plot 30 Courtyard Villas.

In the wake of CPC being issued at Plot 30, the Interior Decorating team has also mobilized at Unit 30-3, with a view to launching a new show unit in 2025Q1.

Tenaga and Telekom were busy around our neighbourhood. We've been told to expect some road digging as levels of service continue to be upgraded. We are pleased for the addition of Unifi's latest broadband packages to our residents!
